This home has the most extensive list of costly upgrades of any home we have ever listed. It is an all-electric home that is extremely efficient and results in tremendous savings on utility bills. It has an Electric Thermal Storage heating system. This system stores heat during off-peak hours when rates are cheap. When heat is needed, the system distributes it through the home. This is accompanied by an efficient heat pump. This home has not been smoked in. No pets lived here. There are Pella windows. Cooks will love the huge Sub Zero brand refrigerator/freezer. In addition there is a double drawer freezer built into the kitchen cabinetry. The double oven plus microwave add to the fabulous kitchen. There are high quality Kohler and Moen fixtures. There is a huge walk-in pantry. The central vac makes life more convenient. The main floor has 3/4" oak flooring nearly everywhere. The home is on a paved street. There is so much more. You must see it! 2016 taxes have Homestead reduction.
